## SUMMARY

I am Muhammad Fauzan Hariyono, a 3rd semester Computer Science student at Gunadarma University with experience as a 3D animator. I hold a TOEIC score of 726 and BNSP certification for industry-standard project completion. Currently focusing on deepening my programming skills and seeking career development opportunities in the technology field.

## WORK EXPERIENCE

### 3D Animator For Riska Dan Si Gembul (Kulstori) May 2022 - July 2022

- Experienced as a 3D Animator at KULSTORI, helping to animate the characters "RISKA DAN SI GEMBUL".
- Skilled in rigging and animating characters to move naturally and smoothly
- Collaborative team player, focused on creating engaging and audience-appealing animations.

### Social Media Designer And Video Editor (Morehope) July 2022 - Oct 2022

- Creating engaging poster designs for Instagram and various social media platforms.
- Actively participating in teamwork to develop innovative creative concepts.
- Responsible for recording and editing videos for Instagram and social media content.

### Social Media Designer (Commet Kreasi Indonesia) July 2022-Oct 2022

- Designed visual content for publication on Commet Kreasi Indonesia's social media platforms.
- Edited promotional videos for SPG Commet Kreasi Indonesia and uploaded them to the company's social media channels.
- Created recruitment promotion designs for SPG and published them on Commet Kreasi Indonesia's Instagram account.

### Graphic Design And Video Recording Support(Terra) July 2022 - Oct 2022

- Designed promotional posters for Terra, focusing on property marketing.
- Edited recorded videos for social media content, including property promotion materials.
- Operated a camera to record videos for Terra's social media content with a focus on property marketing.

### 2D Animation And Video Editor ( TEFA) 2021-2023

- Designed 2D school-themed illustrations, similar to textbook layouts, for use in animated school introduction videos.
- Produced and animated 2D videos for school promotional purposes.
- Created 2D character designs for animation in Adobe software.

### Volunteer React Day (PPIM UIN JAKARTA) August 11 - August 23

- Supported the design team by editing event cards and promotional videos for Instagram (PPIM UIN Jakarta).
- Created engaging and entertaining content to boost audience interaction on social media.
- Collaborated with the team to develop the eco-friendly game "Pin n Win" using recycled materials as part of environmental education.
- Assisted in event execution during React Day by managing booths, facilitating the interactive "Tree of Hope" activity, and coordinating tasks with fellow volunteers.
- Contributed to the overall success of the event, raising environmental awareness and encouraging active participation from attendees.
